EARTH SHAKER

SHELBY GT500 Its rumble. Unmistakable. A sound so sinister could only be the supercharged 5.8L aluminum-block V8 breathing life into the legendary Shelby GT500. Brembo™ 6-piston front brake calipers. 6-speed manual. Launch control system. Set your launch rpm and hang on. For the TORSEN® differential and SVT-engineered Bilstein™ cockpit-adjustable suspension, get the Performance Package. This cobra’s ready to strike.

Shelby GT500. Ingot Silver Metallic.
**SCENE MAKER**

**GT** The celebrated 5.0L V8 beneath its bulging hood cranks out 420 horses\(^1\) and 390 lb.-ft. of torque.\(^1\) Push it with the SelectShift\(^\text{®}\) automatic transmission.\(^2\) Or go totally manual for a class-best EPA-estimated rating of 26 mpg hwy.\(^3\) Get aggressive with a new FP8 Appearance Package that paints your spoiler and sideview mirrors black, adds quarter window louvers, and bumps you up to 19" machined aluminum wheels with black-painted windows. Any way you spec it – a visceral thrill ride.

**V6**

305 hp and an EPA-estimated rating of 31 mpg hwy. Mustang V6 is the first car in its class to take you there. With plenty of low-end grunt and twin independent variable camshaft timing, the 3.7L propels you through all 6 gears. Take control with the SelectShift® automatic or the manual. Larger diameter stabilizer bars, suspension tuning, a strut-tower brace, gloss-black sideview mirrors and unique 19” Foundry Black-painted machined aluminum wheels are just the start of the V6 Performance Package.

GO

Hard and fast. Every Mustang features AdvanceTrac® electronic stability control to help turn horsepower into forward motion. For regular street use, you can leave the system fully engaged. For track-style driving, select the Sport Mode. For even more driver control, you can turn traction control off and disable AdvanceTrac completely.

TURN

Like a pro. Our team of expert drivers conducted extensive suspension testing at racetracks around the country during model development. Components were carefully selected and dialed-in for each model. The result: Every Mustang in the stable delivers a balance of handling, steering and cornering ability you’ll have to experience to believe.

STOP

On a dime. For optimal braking performance, an Anti-Lock Brake System (ABS) with vented 4-wheel discs comes standard. V6 and GT each get unique brakes and rotors. The Brembo™ Brake Package steps it up with 14” vented front rotors and 4-piston calipers. Shelby® GT500® gets Brembo 15” front rotors and 6-piston calipers for extra bite.
The GT Track Package ups your odds in an instant. TORSEN® helical gear differential with 3.73:1 gear ratio. Upgraded radiator. Engine oil cooler. It also includes the Brembo™ Brake Package with its 14” vented front rotors, unique suspension tuning, 19” wheels with sticky summer-only performance tires and more. For hard corners and other gutsy moves: RECARO® Sport seats. Now it’s track time.
